If you are unable to attend, you are welcome to send a substitute.

Levine, Blaszak, Block & Boothby, LLP ("LB3") focuses on telecommunications and technology law, with particular emphasis on the representation of large users, including almost one-half of the Fortune 100. LB3 has extensive experience in negotiating custom network service agreements, network outsourcings, and related transactions always representing large users, never vendors. LB3 has advised enterprise customers in connection with over 1,000 network services agreements and related transactions. Beyond negotiation of commercial deals, LB3 is the leading representative of large end users and IT companies before the FCC and other regulators, and is the first choice of large end users whose relationships with their communications providers have broken down.

TechCaliber Consulting, LLC ("TC2") helps major businesses get the most out of their voice services, data networks and managed services at the lowest possible cost. TC2 cuts through carrier efforts to obscure prices by establishing target prices before negotiations begin using a wealth of hands-on experience in the market for corporate voice and data services and managed network operations. TC2 works with clients to support and/or lead the proposal process and negotiations, enhanced by its affiliation with LB3. Most importantly, TC2 helps clients structure their obligations to maximize each client's permanent, ongoing leverage as real prices decline, new technologies emerge, and telecom industry upheaval reshapes both domestic and international procurement options. TC2 works primarily for large multi-national companies, supporting over 100 deals each year that range in value from a few million dollars to over \$1 billion.
